HOW TO CITE RULES AND RSMo

RULES—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 28, *Missouri Register*, page 27. The approved short form of citation is 28 MoReg 27.

The rules are codified in the *Code of State Regulations* in this system—

Title	Code of State Regulations	Division	Chapter	Rule
1	CSR	10-	1.	010
Department		Agency, Division	General area regulated	Specific area regulated

They are properly cited by using the full citation , i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division within the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

RSMo—The most recent version of the statute containing the section number and the date.

ATTEST:

Jason Kander
Secretary of State

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

PRIVATE COST: This proposed amendment will cost private entities approximately twenty-six thousand five hundred dollars (\$26,500) per year.

*NOTICE TO SUBMIT COMMENTS: Anyone may submit a written statement in support of or in opposition to this proposed amendment. Written statements shall be sent to the attention of Joe Walker, Grain Regulatory Services, PO Box 630, Jefferson City, MO 65102. **Title 2—DEPARTMENT OF AGRICULTURE
Division 60—Grain Inspection and Warehousing
Chapter 4—Missouri Grain Warehouse Law**

PROPOSED AMENDMENT

2 CSR 60-4.150 Letters of Credit. The division is amending section (1), deleting section (5), and renumbering as needed.

PURPOSE: Amending this rule will remove the requirement that an irrevocable letter of credit, provided in lieu of a public grain warehouse bond, be issued by a bank chartered under the laws of Missouri. Also, the requirement that an irrevocable letter of credit provided in lieu of a public grain warehouse bond be negotiable only at a financial institution located within Missouri is removed. The International Chamber of Commerce publication which cites rules that issuing banks are to follow is updated to the current publication number.

(1) A letter of credit issued by a commercial bank chartered under the laws of Missouri, **or any state**, or chartered pursuant to the National Banking Act, Title 12 U.S.C. may be submitted to the Missouri Department of Agriculture in lieu of a Missouri grain warehouse bond as required by sections 411.010–411.800, RSMo; *provided*, that the commercial bank adopts and adheres to the rules enumerated in the International Chamber of Commerce publication *[UCP-500] UCP-600* pertaining to letters of credit and issues those letters in conformity with Article V of the *Uniform Commercial Code*, section 400.5-101, RSMo. The letter of credit must be in an amount equal to the otherwise required bond.

[(5) All letters of credit must be negotiable at a financial institution located within Missouri.]

[(6)](5) Letters of credit shall have a term of one (1) year which shall be renewable automatically for additional one- (1)-/ year terms. A letter of credit may be revoked by the licensee or issuer only at its expiration date by giving the Department of Agriculture at least ninety (90) days written notice, by certified mail, prior to a renewal date.

Notice is not deemed sufficiently given unless the director of agriculture receives the cancellation notice in writing, by certified mail, at least ninety (90) days prior to the renewal date of the letter of credit. Upon the timely receipt of this notice, the licensee shall be required to arrange for substitution of a suitable bond or certificate of deposit (CD) at least sixty (60) days prior to the expiration of the letter of credit. If satisfactory evidence of these arrangements is not timely received, the director shall proceed in accordance with the provisions of section 411.275, RSMo.

[(7)](6) If a licensee desires to surrender its license and requests the release of a letter of credit, the licensee must return its grain warehouse license and make written request by registered mail or certified mail with return receipt for the release of the letter of credit. Upon receipt of the written request and the submission of the grain warehouse license, the director shall hold the letter of credit until the director is satisfied that no claims exist, which may include a minimum ninety- (90-)/-/ day holding period, before notice of release is transmitted to the issuer.

[(8)](7) In the event that a licensee desires to substitute a bond for a letter of credit then in possession of the director of agriculture, the letter of credit shall remain in force for a period of ninety (90) days following the later of the effective date of the bond or the date the bond is received by the director. A substitute bond shall be considered as received by the director when the bond is actually received or when a binding verbal commitment for a substitute bond has been accepted by the director. The director may retain the letter of credit beyond ninety (90) days for such time as may be required to fully ascertain the existence of any claims. After that, notice of release shall be transmitted to the issuer of the letter of credit.

[(9)](8) In the event that a licensee desires to substitute a CD for a letter of credit, the director shall transmit a release to the issuer of the credit letter upon receipt and authentication of the CD.

[(10)](9) In the event that a plurality of letters of credit from any number of issuers are presented in satisfaction of a licensee's bonding obligation, the director may satisfy claims under the Missouri Grain Warehouse Law by presentment of sight drafts or letter of demand against one (1) or more letters of credit, without regard to proration.

[(11)](10) A licensee shall be required to augment letters of credit in any situation where it would be required to increase its coverage under a bond; this augmentation shall be commensurate to the increased bond value required. In the event of a decreased bond requirement, a new letter of credit for the lesser amount may be substituted for a prior letter upon the renewal date of the letter of credit or at that time as approved by the director.

[(12)](11) If the decrease in bond requirement is due to a decrease in storage capacity, a minimum ninety- (90-)/-/ day bonding period may be required from the date of the amendment audit before a decreased letter of credit will be accepted.

[(13)](12) If the decrease in bond requirement is due to an increase in net worth, a minimum ninety- (90-)/-/ day bonding period may be required from the date the improved net worth is accepted by the director.

[(14)](13) Licensees or prospective licensees may present any combination of CDs, letters of credit, and bonds in satisfaction of its bonding requirement under this chapter; however, in making disbursements for claims, the director shall liquidate the CDs first, draw upon the letters of credit second, and make demand upon the bond(s) third.

[(15)](14) When the director has made written demand for payment of a letter of credit, the letter shall be considered paid if the issuing bank pays the sum demanded to the director within three (3) days of the bank's receipt of that demand, or if the issuing bank deposits the sum demanded in an escrow account solely in the name of the director at a bank designated by the director within three (3) days of the bank's receipt of that demand. Deposit of the sum demanded in this escrow account shall not constitute refusal or failure of the issuing bank to pay the sum demanded to the director and shall prevent a penalty assessment for refusal or failure to pay the sum demanded to the director. When the sum demanded is deposited in this escrow account, the funds shall remain in the escrow account until the liability of the bank has been determined in accordance with Chapter 411, RSMo. In the event that a penalty assessment is necessary in accordance with Chapter 411, RSMo, the penalty assessment shall begin on the fourth day following the date of the bank's receipt of written demand for payment by the director and shall be assessed at the rate of one-seventh (1/7) of a week for each day of delay.

AUTHORITY: sections 411.070(2) and 411.277, RSMo Supp. [1998] 2000. Emergency rule filed April 15, 1986, effective April 25, 1986, expired Aug. 23, 1986. Chapter 30—Petroleum Inspection

PROPOSED AMENDMENT

2 CSR 90-30.040 Quality Standards for Motor Fuels. The division is amending section (4).

PURPOSE: This amendment is proposed to comply with section 414.300, RSMo, which requires specific labeling for alternative fuels including ethanol flex fuel (E85), ethanol flex fuel blends (E16-E50), and biodiesel-diesel fuel blends. This proposal is consistent with National Institute of Standards and Technology (NIST) Handbook 130, Uniform Laws and Regulations in the areas of legal metrology and engine fuel quality, and the Federal Trade Commission (FTC) 16 CFR Part 306 – Automotive Fuel Ratings, Certification and Posting Rule.

(4) Classification of Petroleum Fuels. When gasoline, illuminating

oils, heating fuels, or other motor fuels are sold or offered for sale in Missouri, the invoice bill of lading, shipping paper, or other documentation must identify the name of the product, the particular grade of the product as designated by ASTM, and, when applicable, the minimum octane (antiknock index) as listed in subsections (4)(A)-(G)/(K) of this section. All retail dispensing devices must conspicuously identify the name of the product, the particular grade of the product as designated, and, when applicable, the minimum octane (antiknock index) as listed as follows:

(A) Automotive gasoline shall be identified by leaded or unleaded and the octane (antiknock index) number. The octane posting shall be in accordance with the Federal Trade Commission (FTC) [octane posting and certification rule] 16 CFR Part 306 - Automotive Fuel Ratings, Certification and Posting Rule;

(B) Gasoline-alcohol blends up to and including ten percent (10%) ethanol shall be identified by leaded or unleaded and the octane number. The octane posting shall be in accordance with FTC [octane posting and certification rule] 16 CFR Part 306 - Automotive Fuel Ratings, Certification and Posting Rule;

(C) Retailers and wholesale purchaser-consumers of gasoline shall comply with the Environmental Protection Agency (EPA) pump labeling requirements for gasoline containing greater than ten (10) volume percent up to fifteen (15) volume percent ethanol (E15) under 40 CFR 80.1501;

(D) Ethanol flex fuel (gasoline greater than fifteen (15) volume percent ethanol) shall be labeled as "Ethanol Flex Fuel." The automotive fuel rating for ethanol flex fuel shall be posted in accordance with 16 CFR Part 306 - Automotive Fuel Ratings, Certification and Posting Rule. The term "E85" is a permissible substitution for product identity for street side posting and dispenser advertising in lieu of the term "Ethanol Flex Fuel" for fuels with an ethanol concentration no less than fifty-one (51) volume percent ethanol and no greater than eighty-three (83) volume percent ethanol;

[(C)/(E)] Aviation gasoline shall be identified by Grade 80, Grade 100, or Grade 100LL;

[(D)/(F)] Aviation turbine fuels shall be identified by Jet A, Jet A-1, or Jet B;

[(E)/(G)] Diesel fuel shall be identified by the grades No. 1-D, No. 2-D, or No. 4-D;

(H) Diesel containing more than five (5) volume percent biodiesel shall be labeled with its automotive fuel rating in accordance with 16 CFR Part 306- Automotive Fuel Ratings, Certification and Posting Rule;

(I) Diesel containing biodiesel greater than twenty (20) volume percent shall display a label which states "Consult Vehicle Manufacturer Fuel Recommendations." This label shall be clearly and conspicuously posted on the upper fifty percent (50%) of the dispenser front panel in a type at least six (6) mm (¼ in) in height by 0.8 mm (1/32 in) stroke; block style letters and the color shall be in definite contrast to the background color to which it is applied;

Title 12—DEPARTMENT OF REVENUE Division 30—State Tax Commission Chapter 4—Agricultural Land Productive Values

PROPOSED AMENDMENT

12 CSR 30-4.010 Agricultural Land Productive Values. The commission is amending subsections (1)(A)-(D).

PURPOSE: This rule complies with the requirement of section 137.021, RSMo, to publish a range of productive values for agricultural and horticultural land for the ensuing tax year. The commission is amending this rule to adjust the agricultural land values.

(1) Agricultural Land Grades and Values. The following are definitions of agricultural land grades and the productive values of each:

(A) Grade #1. This is prime agricultural land. Condition of soils is highly favorable with no limitations that restrict their use. Soils are deep, nearly level (zero to two percent (0-2%) slope) or gently sloping with low erosion hazard and not subject to damaging overflow. Soils that are consistently wet and poorly drained are not placed in Grade #1. They are easily worked and produce dependable crop yields with ordinary management practices to maintain productivity—both soil fertility and soil structure. They are adapted to a wide variety of crops and suited for intensive cropping. Use value: [one thousand thirty-five dollars (\$1,035)] one thousand eighty-seven dollars (\$1,087);

(B) Grade #2. These soils are less desirable in one (1) or more respects than Grade #1 and require careful soil management, including some conservation practices on upland to prevent deterioration. This grade has a wide range of soils and minimum slopes (mostly zero to five percent (0-5%)) that result in less choice of either crops or management practices. Primarily bottomland and best upland soils. Limitations—

1. Low to moderate susceptibility to erosion;
2. Rare damaging overflows (once in five to ten (5-10) years); and

3. Wetness correctable by drainage. Use value: [eight hundred fifty dollars (\$850)] eight hundred ninety-three dollars (\$893);

(C) Grade #3. Soils have more restrictions than Grade #2. They require good management for best results. Conservation practices are generally more difficult to apply and maintain. Primarily good upland and some bottomland with medium productivity. Limitations—

1. Gentle slope (two to seven percent (2-7%));
2. Moderate susceptibility to erosion;
3. Occasional damaging overflow (once in three to five (3-5) years) of Grades #1 and #2 bottomland; and
4. Some bottomland soils have slow permeability, poor drainage, or both. Use value: [six hundred forty-five dollars (\$645)] six hundred and seventy-seven dollars (\$677);

(D) Grade #4. Soils have moderate limitations to cropping that generally require good conservation practices. Crop rotation normally includes some small grain (for example, wheat or oats), hay, or both. Soils have moderately rolling slopes and show evidence of serious erosion. Limitations—

1. Moderate slope (four to ten percent (4–10%));
2. Grade #1 bottomland subject to frequent damaging flooding (more often than once in two (2) years), or Grades #2 and #3 bottomland subject to occasional damaging flooding (once every three to five (3–5) years);
3. Poor drainage in some cases; and
4. Shallow soils, possibly with claypan or hardpan. Use value: *[four hundred five dollars (\$405)]* **four hundred twenty-five dollars;**

(E) Grade #5. Soils are not suited to continuous cultivation. Crop rotations contain increasing proportions of small grain (for example, wheat or oats), hay, or both. Upland soils have moderate to steep slopes and require conservation practices. Limitations—

1. Moderate to steep slopes (eight to twenty percent (8–20%));
2. Grades #2 and #3 bottomland subject to frequent damaging flooding (more than once in two (2) years) and Grade #4 bottomland subject to occasional damaging flooding; and
3. Serious drainage problems for some soils. Use value: two hundred five dollars (\$205);

(F) Grade #6. Soils are generally unsuited for cultivation and are limited largely to pasture and sparse woodland. Limitations—

1. Moderate to steep slopes (eight to twenty percent (8–20%));
2. Severe erosion hazards present;
3. Grades #3 and #4 bottomland subject to frequent damaging flooding (more than once in two (2) years), and Grade #5 bottomland subject to occasional damaging flooding (once every three to five (3–5) years); and
4. Intensive management required for crops. Use value: one hundred fifty-eight dollars (\$158);

(G) Grade #7. These soils are generally unsuited for cultivation and may have other severe limitations for grazing and forestry that cannot be corrected. Limitations—

1. Very steep slopes (over fifteen percent (15%));
2. Severe erosion potential;
3. Grades #5 and #6 bottomland subject to frequent damaging flooding (more than once in two (2) years);
4. Intensive management required to achieve grass or timber productions; and
5. Very shallow topsoil. Use value: seventy-nine dollars (\$79);

(H) Grade #8. Land capable of only limited production of plant growth. It may be extremely dry, rough, steep, stony, sandy, wet, or severely eroded. Includes rivers, running branches, dry creek, and swamp areas. The lands do provide areas of benefit for wildlife or recreational purposes. Use value: thirty-one dollars (\$31); and

(I) Definitions. The following are definitions of flooding for purposes of this rule:

1. Damaging flooding. A damaging flood is one that limits or affects crop production in one (1) or more of the following ways:

- A. Erosion of the soil;
- B. Reduced yields due to plant damage caused by standing or flowing water;
- C. Reduced crop selection due to extended delays in planting and harvesting; and
- D. Soil damage caused by sand and rock being deposited on the land by flood waters;

2. Frequent damaging flooding. Flooding of bottomlands that is so frequent that normal row cropping is affected (reduces row crop selection); and

3. Occasional damaging flooding. Flooding of bottomland that is so infrequent that producing normal row crops is not compromised in most years.

(2) Forest Land and Horticultural Land. The following prescribes the treatment of forest land and horticultural land:

(A) Forest land, whose cover is predominantly trees and other woody vegetation, should not be assigned to a land classification grade based on its productivity for agricultural crops. Forest land of two (2) or more acres in area, which if cleared and used for agricultural crops, would fall into land grades #1–#5 should be placed in land grade #6; or if land would fall into land grades #6 or #7 should be placed in land grade #7. Forest land may or may not be in use for timber production, wildlife management, hunting, other outdoor recreation or similar uses; and

(B) Land utilized for the production of horticultural crops should be assigned to a land classification grade based on productivity of the land if used for agricultural crops. Horticultural crops include fruits, ornamental trees and shrubs, flowers, vegetables, nuts, Christmas trees and similar crops which are produced in orchards, nurseries, gardens, or cleared fields.

AUTHORITY: section 137.021, RSMo 2000. Original rule filed Dec. 13, 1983, effective March 12, 1984. For intervening history, please consult the Code of State Regulations. Amended: Filed Dec. 29, 2015.

PUBLIC COST: This proposed amendment will cost state agencies or political subdivisions sixty-nine thousand, seven hundred fifty dollars (\$69,750) in the aggregate as reflected in the attached fiscal note.

PRIVATE COST: The proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate.

NOTICE TO SUBMIT COMMENTS: Anyone may file a statement in support of or in opposition to this proposed amendment with Sandy Wankum, Administrative Secretary, State Tax Commission, PO Box 146, Jefferson City, MO 65102, (573) 751-2414. To be considered, comments must be received within thirty (30) days after publication of this notice in the Missouri Register. No public hearing is scheduled.

II. SUMMARY OF FISCAL IMPACT

Affected Agency or Political Subdivision	Estimated Cost of Compliance in the Aggregate
114 County Assessors	\$69,750

III. WORKSHEET

The cost of updating productivity grade values would be negligible. The cost of generating notices of increased assessments and mailing them to the taxpayers would be very roughly estimated as follows:

- Approximately 465,000 agricultural assessments would be impacted;
- Estimating that the average agricultural taxpayer with land in grades one through four has four agricultural assessments would reduce the number of impact notices to be mailed to approximately 116,250.
- Estimating the cost to print and mail each notice at \$0.60, the total cost statewide would be \$69,750.

IV. ASSUMPTIONS

This cost is based upon a \$5.50 per \$100 assessed valuation tax levy.

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 10—Air Conservation Commission
Chapter 6—Air Quality Standards, Definitions, Sampling
and Reference Methods and Air Pollution Control
Regulations for the Entire State of Missouri**

ORDER OF RULEMAKING

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo Supp. 2013, the commission amends a rule as follows:

10 CSR 10-6.060 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on September 15, 2015 (40 MoReg 1142-1154). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Natural Resources' Air Pollution Control Program received four (4) comments from two (2) sources: the Regulatory Environmental Group for Missouri (REGFORM) and General Motors (GM).

COMMENT #1: REGFORM expressed strong support for the fee proposal and thanked the department's Air Pollution Control Program staff for developing a fair permit fee system. The commenter also acknowledged the new permit fees are the result of a two (2)-year consensus-driven stakeholder process that was consistent with the intent of Senate Bill 642 (2014) and included ample outreach to affected sources.

RESPONSE: The program appreciates the positive feedback.

Due to the similarity in the following two (2) comments, one (1) response is presented.

COMMENT #2: REGFORM suggested the program reduce the renewal fee for Plantwide Applicability Limit (PAL) permits from five thousand dollars (\$5,000) to half that amount since the hard work on the permit will have been done in the first issuance of the PAL permit.

COMMENT #3: GM suggested the program reduce the renewal fee for PAL permits to two thousand five hundred dollars (\$2,500) or less since the renewals are due once every ten (10) years and require significantly less effort and resources than the initial permit.

RESPONSE AND EXPLANATION OF CHANGE: As a result of these comments, the program is changing the ten (10)-year renewal filing fee for PAL permits to two thousand five hundred dollars (\$2,500). The filing fee assists in covering work prior to the receipt of an application and with a PAL renewal there is less work prior to the receipt of an application. PAL permits are reviewed and processed as a construction permit and therefore an hourly review fee is also charged.

COMMENT #4: GM requested that the fee table in subsection (10)(A) be amended to include additional separate entries for PAL permit applications and renewals.

RESPONSE AND EXPLANATION OF CHANGE: As a result of this comment, the program revised the table as suggested and revised the fiscal notes as well to reflect the change.

Permit Amendment	(10)	----	----	\$50/hr	\$75/hr

1. All installations or source operations requiring permits under this rule must submit the application with a permit filing fee to the permitting authority. Failure to submit the permit filing fee constitutes an incomplete permit application according to paragraph (12)(A)2. of this rule.

2. Upon receipt of an application for a permit or a permit amendment, a permit processing fee begins to accrue per hour of actual staff time. In lieu of the per-hour processing fee for projects subject to paragraph (4)(D)1. of this rule, a flat fee as specified in subsection (10)(A) of this rule must be submitted by the applicant.

3. The applicant shall submit fees for the processing of the permit application within ninety (90) calendar days of the final review determination, whether the permit is approved, denied, withdrawn, or not needed. After the ninety (90) calendar days, the unpaid processing fees shall have interest imposed upon the unpaid amount at the rate of ten percent (10%) per annum from the date of billing until payment is made. Failure to submit the processing fees after the ninety (90) calendar days will result in the permit being denied (revoked for portable installation location amendments) and the rejection of any future permit applications by the same applicant until the processing fee plus interest have been paid.

4. In addition to permit filing and processing fees, the applicant shall pay for any publication of notice required and shall pay for the original and one (1) copy of the transcript, to be filed with the permitting authority, of any hearing required under this rule. No permit shall be issued until all publication and transcript costs have been paid.

5. Partially processed permits that are withdrawn after submittal shall be charged at the same processing fee rate in subsection (10)(A) of this rule for the time spent processing the application.

6. The commission may reduce the permit processing fee or exempt any person from payment of the fee upon an appeal filed with the commission stating and documenting that the fee will create an unreasonable economic hardship upon the person.

7. Any person who obtains a valid permit from a city or county holding a certificate of authority granted by the commission under 643.140, RSMo, shall be deemed to have met the fee requirements of this section for that permit.

REVISED PUBLIC COST: This proposed amendment will cost three thousand nine hundred sixty-five dollars (\$3,965) in FY 2017. For the years after FY 2017, the total annual aggregate cost is seven thousand nine hundred thirty dollars (\$7,930) for the life of the rule. Note the attached fiscal note for assumptions that apply. The public cost has not changed from the proposed cost, but the fiscal note has been revised to separate the plantwide applicability limit permit fees from the major source permit filing fees.

REVISED PRIVATE COST: This proposed amendment will cost seventy thousand six hundred eighty-five dollars (\$70,685) in FY 2017. For the years after FY 2017, the total annual aggregate cost is one hundred forty-one thousand three hundred seventy dollars (\$141,370) for the life of the rule. Note the attached fiscal note for assumptions that apply. The private cost decreased to reflect the reduced plantwide applicability limit renewal fee.

IV. ASSUMPTIONS

1. An annualized aggregate cost of this rulemaking is used for the purposes of providing the aggregate cost for the life of the rule. The annualized aggregate cost is the agency estimate of the average costs that will be incurred in any future year, no matter how far distant. For the convenience of calculating this fiscal note over a reasonable time frame, the life of the rule is assumed to be five (5) years although the duration of the rule is indefinite. If the life of the rule extends beyond 5 years, the annual costs for additional years will be consistent with the assumptions used to calculate annual costs as identified in this fiscal note.
2. The estimated number of facilities affected by this rulemaking listed in part II and Table D is based on the Air Program's Missouri Emissions Inventory System (MoEIS) database. The total number of active facilities with an air permit recorded in the MoEIS as of July 24, 2015 is 2,013, of which 121 are public entities. Since it is not possible to know with any certainty which existing or new facilities will obtain construction permits in the future, we are using the universe of operating facilities with active air permits as a representation of the potentially affected sources and types of industry. Table D shows the number of facilities by industry type in the state that could be affected by the proposed permit fee increase if a facility needs a construction permit. An existing facility could need a construction permit for modifications and may obtain multiple construction permits throughout the life of the business. A new facility would need a construction permit to begin construction. Additional industries not listed in the Table D could be affected if a facility representing an industry new to the state constructs.
3. The Construction Permits Fee Information and Table A reflect combined public and private entity information in order to be consistent with the department's budget information.
4. Portable source filing fees are based on \$300 per filing effective January 1, 2017. This fee represents a \$100 increase from the fee of \$200 per filing prior to January 1, 2017.
5. Construction permit review fees are based on a \$75 per hour fee effective January 1, 2017. This fee represents a \$25 increase from the fee of \$50 per hour prior to January 1, 2017. Since the last stakeholder meeting on May 26, 2015, the Air Program received additional stakeholder input resulting in lowering the previously discussed \$100 hourly review fee to \$75. Review fees also apply to amended and temporary permits; initial and 10-year renewal plantwide area limit (PAL) permits; in addition to de minimis, minor, and major construction permits.
6. De minimis and minor permit filing fees are based on \$250 per filing effective January 1, 2017. This fee represents a \$150 increase from the fee of \$100 per filing prior to January 1, 2017.

7. Major permit filing fees, including initial PAL permits, are based on \$5,000 per filing effective January 1, 2017. This fee represents a \$4,900 increase from the fee of \$100 per filing prior to January 1, 2017. The 10-year renewal filing fees for PAL permits are based on \$2,500 per renewal effective January 1, 2017. This fee represents a \$2,400 increase from the fee of \$100 per 10-year renewal prior to January 1, 2017.
8. The numbers for each type of permit in Table A were derived by dividing total annual revenue collected from construction permit applications by the current \$100 filing fee and then averaging for 3 years to account for normal fluctuation from year to year. This figure was broken down into categories of de minimis/minor/temporary and major based on the average annual number of construction permit applications by type received during FY2012-2014. The number of portable relocations was calculated by dividing the 3-year average annual revenue collected from portable relocation requests by the current \$200 fee. The number of review hours was calculated using the same method of dividing total annual revenue by the \$50 per hour review fee and then averaging three years. Fiscal years 2012 through 2014 were used for the three-year averages. For the purpose of this fiscal note, these averages are assumed to remain constant through fiscal year 2022.
9. Fee collection amounts for FY2017 through 2022 are based on a yearly average of 69 applications to relocate portable sources of which all are estimated to be private entities; 3,466 construction permit review hours of which 173 are estimated to be public entities and 3,293 are estimated to be private entities; 268 de minimis and minor permits of which 24 are estimated to be public entities and 244 are estimated to be private entities; and 4 major permits per year all of which are estimated to be private entities, but it is possible for a public entity to need a major construction permit. The numbers of private versus public entities is based on data from MoEIS as of July 24, 2015.
10. The fees collected are uniformly distributed throughout the fiscal years with exception of renewal PAL fees that are distributed in the fiscal year when 10-year renewals are expected to be due.
11. This fiscal note only includes estimated costs for changes made as a result of this proposed rule amendment.
12. Note that numbers in the tables appear as whole numbers, but actual numbers may include decimal places sometimes causing a variance in totals.

IV. ASSUMPTIONS

1. An annualized aggregate cost of this rulemaking is used for the purposes of providing the aggregate cost for the life of the rule. The annualized aggregate cost is the agency estimate of the average costs that will be incurred in any future year, no matter how far distant. For the convenience of calculating this fiscal note over a reasonable time frame, the life of the rule is assumed to be five (5) years although the duration of the rule is indefinite. If the life of the rule extends beyond 5 years, the annual costs for additional years will be consistent with the assumptions used to calculate annual costs as identified in this fiscal note.
2. The estimated number of facilities affected by this rulemaking listed in part II and Table D is based on the Air Program's Missouri Emissions Inventory System (MoEIS) database. The total number of active facilities with an air permit recorded in the MoEIS as of July 24, 2015 is 2,013, of which 1,892 are private entities. Since it is not possible to know with any certainty which existing or new facilities will obtain construction permits in the future, we are using the universe of operating facilities with active air permits as a representation of the potentially affected sources and types of industry. Table D shows the number of facilities by industry type in the state that could be affected by the proposed permit fee increase if a facility needs a construction permit. An existing facility could need a construction permit for modifications and may obtain multiple construction permits throughout the life of the business. A new facility would need a construction permit to begin construction. Additional industries not listed in the Table D could be affected if a facility representing an industry new to the state constructs.
3. The Construction Permits Fee Information and Table A reflect combined public and private entity information in order to be consistent with the department's budget information.
4. Portable source filing fees are based on \$300 per filing effective January 1, 2017. This fee represents a \$100 increase from the fee of \$200 per filing prior to January 1, 2017.
5. Construction permit review fees are based on a \$75 per hour fee effective January 1, 2017. This fee represents a \$25 increase from the fee of \$50 per hour prior to January 1, 2017. Since the last stakeholder meeting on May 26, 2015, the Air Program received additional stakeholder input resulting in lowering the previously discussed \$100 hourly review fee to \$75. Review fees also apply to amended and temporary permits; initial and 10-year renewal plantwide area limit (PAL) permits; in addition to de minimis, minor, and major construction permits.
6. De minimis and minor permit filing fees are based on \$250 per filing effective January 1, 2017. This fee represents a \$150 increase from the fee of \$100 per filing prior to January 1, 2017.

7. Major permit filing fees, including initial PAL permits, are based on \$5,000 per filing effective January 1, 2017. This fee represents a \$4,900 increase from the fee of \$100 per filing prior to January 1, 2017. The 10-year renewal filing fees for PAL permits are based on \$2,500 per renewal effective January 1, 2017. This fee represents a \$2,400 increase from the fee of \$100 per 10-year renewal prior to January 1, 2017.
8. The numbers for each type of permit in Table A were derived by dividing total annual revenue collected from construction permit applications by the current \$100 filing fee and then averaging for 3 years to account for normal fluctuation from year to year. This figure was broken down into categories of de minimis/minor/temporary and major based on the average annual number of construction permit applications by type received during FY2012-2014. The number of portable relocations was calculated by dividing the 3-year average annual revenue collected from portable relocation requests by the current \$200 fee. The number of review hours was calculated using the same method of dividing total annual revenue by the \$50 per hour review fee and then averaging three years. Fiscal years 2012 through 2014 were used for the three-year averages. For the purpose of this fiscal note, these averages are assumed to remain constant through fiscal year 2022.
9. Fee collection amounts for FY2017 through 2022 are based on a yearly average of 69 applications to relocate portable sources of which all are estimated to be private entities; 3,466 construction permit review hours of which 173 are estimated to be public entities and 3,293 are estimated to be private entities; 268 de minimis and minor permits of which 24 are estimated to be public entities and 244 are estimated to be private entities; and 4 major permits per year all of which are estimated to be private entities, but it is possible for a public entity to need a major construction permit. The numbers of private versus public entities is based on data from MoEIS as of July 24, 2015.
10. The fees collected are uniformly distributed throughout the fiscal years with exception of renewal PAL fees that are distributed in the fiscal year when 10-year renewals are expected to be due.
11. This fiscal note only includes estimated costs for changes made as a result of this proposed rule amendment.
12. Note that numbers in the tables appear as whole numbers, but actual numbers may include decimal places sometimes causing a variance in totals.

Chapter 2—Oil and Gas Drilling and Production

ORDER OF RULEMAKING

By the authority vested in the State Oil and Gas Council under section 259.070.5, RSMo Supp. 2015, the council amends a rule as follows:

10 CSR 50-2.020 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on October 15, 2015 (40 MoReg 1436-1441). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing on this proposed amendment was held November 16, 2015, at the State Oil and Gas Council meeting, and the public comment period ended November 18, 2015. At the public hearing, Department of Natural Resources staff explained the proposed amendment. No comments were made

at the public hearing. The department received written comments during the comment period from The Surety & Fidelity Association of America and from Geological Survey Program staff.

COMMENT #1: The Surety & Fidelity Association of America commented that the limitations set forth in paragraphs (3)(A)2. and 3. are unnecessary and exceed the regulatory requirements established by the Missouri Department of Insurance in section 379.235(1), RSMo, and that these paragraphs should be deleted.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees and will delete paragraphs (3)(A)2. and 3. and renumber accordingly.

COMMENT #2: The Surety & Fidelity Association of America commented that the notice required in subparagraph (3)(A)6.A. is not necessary and that, since most surety companies are part of a publicly traded insurance company with stock that is freely traded, corporate ownership may change on a daily basis and notification was not feasible.

RESPONSE AND EXPLANATION OF CHANGE: The requirement to provide notice of change in corporate ownership will be deleted from subparagraph (3)(A)6.A. as well as subsequent references to corporate ownership in paragraphs (3)(A)7., (3)(B)5., (3)(B)6., (3)(C)7., and (3)(C)8.

COMMENT #3: A Geological Survey Program staff member commented that paragraph (3)(C)5. is inconsistent with section (6) and should be revised to state, "his/her statement that the operator's bond has been declared forfeited."

RESPONSE AND EXPLANATION OF CHANGE: Paragraph (3)(C)5. will be changed.

COMMENT #4: A Geological Survey Program staff member commented that in subsection (6)(D) the reference to 10 CSR 50-2.060(3)(E) should be corrected to reference 10 CSR 50-2.060(3)(F).

RESPONSE AND EXPLANATION OF CHANGE: Subsection (6)(D) will be changed.

10 CSR 50-2.020 Bonds

(3) Types of bonds. The state geologist may accept surety bonds, personal bonds secured by certificates of deposit, and personal bonds secured by irrevocable letters of credit. The bond shall be submitted on the appropriate form. When the bond is filed, the state geologist shall review the bond and if the bond is in proper form, the state geologist shall accept the bond with the conditions which may be required by the council or by rule. If the bond is determined to be insufficient or not in proper form, the state geologist shall notify the operator. No drilling or operation shall commence or continue unless there is a sufficient bond on file with the state geologist.

(A) Surety bonds shall be subject to the following conditions:

1. Only irrevocable surety bonds shall be accepted. No bond of a surety company shall be cancelled for any reason whatsoever, including, but not limited to, nonpayment of premium, bankruptcy, or insolvency of the operator or issuance of notices of violations or cessation orders and assessment of penalties with respect to the operations covered by the bond, except that surety bond coverage for wells not drilled may be cancelled if the surety provides written notification and the state geologist is in agreement. The state geologist shall advise the surety, within thirty (30) days after receipt of a notice to cancel bond, whether the bond may be cancelled;

2. The surety shall be licensed to conduct a surety business in Missouri;

3. Both the surety and the operator shall be primarily liable for completion of any remedial actions, including, but not limited to, well plugging, with the surety's liability being limited to the amount of the bond;

4. The bond shall provide that—

A. The surety will give prompt notice to the operator and the state geologist of any change in name or address of the surety company, or any notice received or action filed alleging the insolvency or bankruptcy of the surety or alleging any violations of regulatory requirements which could result in suspension or revocation of the surety's license to do business; and

B. In the event the surety becomes unable to fulfill its obligation under the bond for any reason, notice shall be given immediately to the operator and the state geologist; and

5. The bond shall provide a mechanism for a surety company to give prompt notice to the state geologist and the operator of any change in name or address of the surety company, or any action filed alleging the insolvency or bankruptcy of the surety company, or the operator, or alleging any violations which would result in suspension or revocation of the surety license to do business. Upon the incapacity of a surety by reason of bankruptcy or insolvency, or suspension or revocation of its license, the operator shall be deemed to be without bond coverage in violation of section (1) and shall promptly notify the state geologist. The state geologist, upon notification of the surety's bankruptcy or insolvency, or suspension or revocation of its license, shall issue a notice of violation against any operator who is without bond coverage. The notice shall specify a thirty- (30-) day period to replace bond coverage. If the bond is not replaced in thirty (30) days, an order shall be issued by the state geologist requiring immediate cessation of operations. Operations shall not resume until the state geologist has determined that an acceptable bond had been posted.

(B) Personal bonds secured by certificates of deposit shall be subject to the following conditions:

1. The certificate(s) shall be in the amount of the bond or in an amount greater than the bond and shall be made payable to or assigned to the state of Missouri, both in writing and upon the records of the institution issuing the certificates, and shall be automatically renewable at the end of the term of the certificate. If assigned, institutions issuing the certificate(s) waive all rights of set off or liens against the certificate(s);

2. No single certificate of deposit shall exceed the sum of two hundred fifty thousand dollars (\$250,000) nor shall any permittee submit certificates of deposit aggregating more than two hundred fifty thousand dollars (\$250,000) or the maximum insurable amount as determined by the Federal Deposit Insurance Corporation from a single institution. The institution issuing the certificate of deposit must be insured by the Federal Deposit Insurance Corporation (FDIC);

3. Any interest on the certificates of deposit shall be made payable to the operator;

4. The certificate of deposit shall be kept until the bond is released by the state geologist;

5. The institution issuing the certificate(s) of deposit for bonding purposes shall give prompt notice to the state geologist and the operator of any change in name or address of the institution, and any insolvency or bankruptcy of the institution; and

6. The bond shall provide a mechanism for an institution to give prompt notice to the state geologist and the operator of any change in name or address of the institution, any action filed alleging the insolvency or bankruptcy of the institution or the operator, or alleging any violations which would result in suspension or revocation of the institution charter or license to do business. Upon the incapacity of any institution by reason of insolvency or bankruptcy, or suspension or revocation of its charter or license, the operator shall be deemed to be without bond coverage in violation of section (1). The state geologist, upon notification of the institution's bankruptcy or insolvency, or suspension or revocation of its charter or license, shall issue a notice of violation against any operator who is without bond coverage. The notice shall specify a thirty- (30-) day period to replace bond coverage. If the bond is not replaced in thirty (30) days, an order shall be issued by the state geologist requiring immediate cessation of operations.

Operations shall not resume until the state geologist has determined that an acceptable bond has been posted.

(C) Personal bonds secured by letters of credit shall be subject to the following conditions:

1. The letter of credit shall be no less than the face amount of the bond and shall be irrevocable. A letter of credit used as security shall be forfeited and shall be collected by the state geologist if not replaced by other suitable bond or letter of credit at least thirty (30) days before its expiration date;

2. The beneficiary of the letter of credit shall be the state of Missouri;

3. The letter of credit shall be issued by a bank authorized to do business in the United States. If the issuing bank is located in another state, a bank located in Missouri must confirm the letter of credit. Confirmations shall be irrevocable and on a form provided by the department;

4. The letter of credit shall be governed by Missouri law. The Uniform Customs and Practice for Documentary Credits, fixed by the International Chamber of Commerce, shall not apply;

5. The letter of credit shall provide that the state geologist may draw upon the credit by making a demand for payment, accompanied by his/her statement that the operator's bond has been declared forfeited;

6. The issuer of a letter of credit or confirmation shall warrant that the issuance will not constitute a violation of any statute or regulation which limits the amount of loans or other credits which can be extended to any single borrower or customer or which limits the aggregate amount of liabilities which the issuer may incur at any one (1) time from issuance of letters of credit and acceptances;

7. The bank issuing the letter(s) of credit for bonding purposes shall give prompt notice to the state geologist and the operator of any change in name or address of the institution, or any insolvency or bankruptcy of the bank; and

8. The bond shall provide a mechanism for a bank to give prompt notice to the state geologist and the operator of any change in name or address of the institution, any action filed alleging the insolvency or bankruptcy of the bank or the operator, or alleging any violations which would result in suspension or revocation of the bank's charter or license to do business. Upon the incapacity of any bank by reason of insolvency or bankruptcy, or suspension or revocation of its charter or license, the operator shall be deemed to be without bond coverage in violation of section (1). The state geologist, upon notification of the bank's bankruptcy or insolvency, or suspension or revocation of its charter or license, shall issue a notice of violation against any operator who is without bond coverage. The notice shall specify a thirty- (30-) day period to replace bond coverage. If the bond is not replaced in thirty (30) days, an order shall be issued by the state geologist requiring immediate cessation of operations. Operations shall not resume until the state geologist has determined that an acceptable bond has been posted.

(6) Bond Forfeiture.

(D) The entry of an order declaring a bond forfeited shall automatically authorize the state geologist, with the assistance of the attorney general, if necessary, to take whatever actions are necessary to collect the forfeited bond and any instruments securing the bond. The forfeited bond shall be deposited into the Oil and Gas Remedial Fund and utilized according to 10 CSR 50-2.060(3)(F).

RESPONSE AND EXPLANATION OF CHANGE: Subparagraph (12)(A)1.A. will be changed.

10 CSR 50-2.055 Injection Wells, Mechanical Integrity Testing, and Well Stimulation Treatment

(12) Mechanical integrity. All new or newly converted injection wells shall be required to demonstrate mechanical integrity and meet the requirements of 10 CSR 50-2.090 and 10 CSR 50-2.100 before operation may begin. All injection wells not permanently plugged must demonstrate mechanical integrity at least once every five (5) years.

(A) Demonstration of mechanical integrity shall utilize at least one (1) of the following procedures:

1. Pressure test. The annulus above the packer, or the injection casing in wells not equipped with a packer, shall be pressure tested. The date for this test shall be mutually agreed upon by the operator’s representative and a representative of the state geologist, with a minimum of five (5) business days’ notice prior to the test. Test results shall be verified by the operator’s representative. The test shall be conducted in the following manner:

A. For newly completed or newly converted wells, the casing may be tested before perforating. A fluid pressure of one hundred ten percent (110%) of the approved pressure shall be applied, but shall be no less than three hundred (300) psig. A well demonstrates mechanical integrity if, when pressurized, it does not lose more than ten percent (10%) of the tested pressure over a period of thirty (30) minutes;

B. Wells constructed with tubing and a packer shall be pressure tested with the packer in place. A fluid pressure of one hundred

ten percent (110%) of the approved pressure shall be applied, but shall be no less than three hundred (300) psig. A well demonstrates mechanical integrity if, when pressurized, it does not lose more than ten percent (10%) of the tested pressure over a period of thirty (30) minutes;

C. For wells constructed with tubing and no packer, a retrievable plug or packer shall be set immediately above the uppermost perforation or openhole zone. A fluid pressure of one hundred ten percent (110%) of the approved pressure shall be applied, but shall be no less than three hundred (300) psig. A well demonstrates mechanical integrity if, when pressurized, it does not lose more than ten percent (10%) of the tested pressure over a period of thirty (30) minutes; and

D. For wells constructed with tubing and no packer, a method of pressure testing known as fluid depression may be conducted with prior approval and under guidelines established by the state geologist. The fluid in the well shall be depressed with gas pressure to a point in the wellbore immediately above the perforations or openhole interval. The minimum calculated pressure required to depress the fluid in the wellbore shall be no less than fifty (50) psig. A well demonstrates mechanical integrity if, when pressurized, it does not lose more than ten percent (10%) of the tested pressure over a period of thirty (30) minutes;

2. Alternative tests. Alternative test methods approved by the state geologist including, but not limited to, temperature surveys, tracer surveys, or noise logs, may be used to demonstrate mechanical integrity if conditions are appropriate. The date for this test shall be mutually agreed upon by the operator's representative and a representative of the state geologist, with notice provided a minimum of five (5) business days prior to the test. Test results shall be verified by the operator's representative and shall be interpreted as specified in state geologist-approved procedures;

15 CSR 40-3.030 Annual Financial Reports of Political Subdivisions **is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on October 1, 2015 (40 MoReg 1307). No changes have been made in the text of the proposed amendment, so it is not reprinted here. SUMMARY OF COMMENTS: A public hearing on this proposed amendment was held November 2, 2015, and the public comment period ended November 6, 2015. At the public hearing, State Auditor's Office staff explained the rule and one comment was made. In addition, the State Auditor received one (1) written comment.

COMMENT #1: Paul V. Rost, attorney with Cunningham, Vogel, and Rost, P.C., suggested that the reporting requirements regarding the percent of annual general operating revenue from fines, bond forfeitures, and court costs for minor traffic violations not be required for any annual financial report filed by political subdivisions for any fiscal year ending before August 28, 2015.

RESPONSE: The amended rule removed the reporting procedures related to traffic violations from this rule. Section 479.359, RSMo, which provides an addendum to the financial report from counties, cities, towns, and villages, is not applicable to all political subdivisions that file an annual financial report under the procedures in this rule. The regulation related to procedures for the filing of the addendum is now 15 CSR 40-3.170. No changes were made to this rule as a result of this comment.

COMMENT #2: Carl Lumley, attorney with Curtis, Heinz, Garrett, and O'Keefe, P.C., stated that he would like to acknowledge the benefits of the changes that the Auditor's Office made.

RESPONSE: No changes were made to this rule as a result of this comment.

Section (6) will be amended to allow for reasonable opportunity for demonstration of compliance by counties, cities, towns, and villages whose fiscal years ended before August 28, 2015, but whose financial reports are filed after August 28, 2015.

COMMENT #6: Paul V. Rost, attorney with Cunningham, Vogel, and Rost, P.C., suggested that the auditor's office include an additional subsection stating that any city, town, or village that has its municipal violations heard by a county municipal court or by an associate circuit court judge and that does not receive any proceeds from the municipal court shall not have to supply the financial information required by the proposed rule and form. He also suggested that the auditor's office amend the included form.

RESPONSE: Section 479.359, RSMo, does not provide any exceptions. The included form allows a county, city, town, or village to check boxes to confirm that they have no municipal court and receive no revenue from municipal violations. The words "its own" denote that the county, city, town, or village are not contracting with or using a court of another government entity. No changes will be made as a result of this comment.

COMMENT #7: Dana Loudenbaugh, Fair Grove City Clerk; and Darra Justice, Fair Grove Court Clerk, disagreed with the estimation of the public cost.

RESPONSE: The public cost statement examines the cost attributable to the proposed rule, not whether the changes in the law itself result in any cost. No changes have been made as a result of this comment.

COMMENT #8: Dana Loudenbaugh, Fair Grove City Clerk; and Darra Justice, Fair Grove Court Clerk, commented on the fact that the addendum must be signed in front of a notary public.

RESPONSE: Section 479.359, RSMo, requires notarization. No changes will be made as a result of this comment.

COMMENT #9: Carl Lumley, attorney with Curtis, Heinz, Garrett, and O'Keefe, P.C., requested that the auditor's office clarify the definition of "minor traffic violations" as to whether the exceptions in the statutory definition refer to the underlying facts or an element of the formal charge.

RESPONSE: The term "minor traffic violation" is specifically defined in section 479.350, RSMo. The statutory definition of "minor traffic violation" includes municipal or county ordinance traffic violations, except those that involve any one (1) of the following: 1) an accident; 2) an injury; 3) the operation of a commercial motor vehicle; 4) authorization for the Department of Revenue to assess five (5)

or more points to a person's driving record upon conviction; 5) exceeding the speed limit by more than nineteen (19) miles per hour; or 6) violations within a construction zone or school zone. No changes will be made as a result of this comment.

COMMENT #10: Carl Lumley, attorney with Curtis, Heinz, Garrett, and O'Keefe, P.C., suggested that the term "total annual revenue" should be deleted from the form as it is inapplicable to the addendum.

RESPONSE: The total revenue for the county, city, town, or village will assist in the auditing of the calculations. No changes will be made as a result of this comment.

COMMENT # 11: Carl Lumley, attorney with Curtis, Heinz, Garrett, and O'Keefe, P.C., requested that the Auditor's office include a comprehensive list of items included in the terms "annual general operating revenue" and "court costs" to promote uniform compliance.

RESPONSE: Because of differences between municipalities, an all-inclusive list cannot be provided. The terms are defined in section 479.350, RSMo. No changes will be made as a result of this comment.

COMMENT #12: Paul V. Rost, attorney with Cunningham, Vogel, and Rost, P.C., suggested that the auditor clarify this sentence on the form, "List Any Courts Which Provide Revenue from Fines, Bond Forfeitures and Court Costs for Minor Traffic Violations."

RESPONSE AND EXPLANATION OF CHANGE: The form has been changed for clarity in response to this comment.

COMMENT #13: Melissa Ziemianin, court administrator and city clerk of the City of Pineville, suggested that it is not clear who has to sign the form.

RESPONSE: Section 479.359.3(4), RSMo, and the proposed rule provide that any representative of the county, city, town, or village with knowledge of the subject matter may sign. Because of differences between local government structures, an all-inclusive list of potential representatives with knowledge cannot be provided. No changes will be made as a result of this comment.

15 CSR 40-3.170 Addendum Filed with the Auditor's Office

(3) The addendum form shall be submitted within six (6) months after the end of the county, city, town, or village's fiscal year and shall be filed with any required annual financial report filed under the procedures in 15 CSR 40-3.030.

(6) If the county, city, town, or village's fiscal year ended before August 28, 2015, the county, city, town, or village may report the information required by section (1) of this regulation in a form that substantially comports with the requirements of this regulation and may report its total revenue for municipal court violations or provide an accounting of the percent of annual general operating revenue from fines and court costs from traffic violations, including amended charges from any charged traffic violation based on section 302.341, RSMo Supp. 2014.

(7) Examples.

(A) A city with a municipal court has several ordinances related to equipment failure, vehicle registration, and seatbelt use for which no points are placed on the driver's license upon conviction. The funds received from these violations should be included in "minor traffic violations" when reporting the information under section (1) of this regulation because the statutory definition of "minor traffic violation" includes municipal or county ordinance traffic violations, except those that involve authorization for the Department of Revenue to assess five (5) or more points to a person's driving record upon conviction, assuming that the specific violation does not fall

within one (1) of the other statutorily enumerated exceptions in the definition of "minor traffic violation."

(B) The municipal court amends a violation that does not meet the definition of "minor traffic violation" to a violation that does meet this definition. The funds received from these violations should be included in "minor traffic violations" when reporting the information under section (1) of this regulation because the calculation includes charges for all minor traffic violations.

(C) The municipal court amends a violation that meets the definition of "minor traffic violation" to a violation that does not meet this definition. The funds received from these violations should be included in "minor traffic violations" when reporting the information under section (1) of this regulation because the original charge is a minor traffic violation.

**Title 15—ELECTED OFFICIALS
Division 40—State Auditor
Chapter 3—Rules Applying to Political Subdivisions**

ORDER OF RULEMAKING

By the authority vested in the State Auditor under section 29.100, RSMo 2000, and sections 479.360 and 479.362, RSMo Supp. 2015, the auditor adopts a rule as follows:

15 CSR 40-3.180 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 2015 (40 MoReg 1310-1312). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing on this proposed rule was held November 2, 2015, and the public comment period ended November 6, 2015. At the public hearing, the State Auditor's Office staff explained the rule and one (1) comment was made. In addition, the State Auditor received written comments from three (3) individuals.

COMMENT #1: Paul V. Rost, attorney with Cunningham, Vogel, and Rost, P.C., suggested that the auditor's office include an additional subsection stating that any city, town, or village that contracts to have its municipal violations heard in another court or that has its municipal ordinance violations heard by an associate circuit court judge shall not have to file.

RESPONSE AND EXPLANATION OF CHANGE: Section 479.360.1, RSMo, provides that the certificate of compliance must be "signed by its municipal judge." Section (7) will be amended to clarify that cities, towns, and villages without their own municipal judges shall not be required to file the certification.

COMMENT #2: Edward Pultz, municipal judge for the cities of Farmington and Iron Mountain Lake, and the city counselor for the City of Park Hills, suggested that sections (6) and (7) are in conflict and requested clarification of when the documents shall be filed.

RESPONSE AND EXPLANATION OF CHANGE: Section (6) will be amended to clarify when and where the certification must be filed.

COMMENT #3: Edward Pultz, municipal judge for the cities of Farmington and Iron Mountain Lake, and the city counselor for the City of Park Hills, stated that the language in section 479.360(1), RSMo saying that the certification must be filed together with the city's report under section 105.145, RSMo seems to be in conflict with the rule.

RESPONSE AND EXPLANATION OF CHANGE: Section (6) will be amended for clarity.

COMMENT #4: Michelle Shaffer, Raymore Municipal Court Clerk, requested rules on what a court may or may not require a defendant to provide as proof of income.

RESPONSE: Section 29.100, RSMo, and sections 479.359 and 479.362, RSMo, which authorize the auditor to promulgate this rule, do not provide the authority to promulgate rules related to indigency standards in municipal courts. No changes will be made as a result of this comment.

COMMENT #5: Carl Lumley, attorney with Curtis, Heinz, Garrett, and O'Keefe, P.C., stated that he would like to acknowledge the benefits of the changes that the auditor's office made.

RESPONSE: No changes were made to this rule as a result of this comment.

15 CSR 40-3.180 Municipal Court Certifications Filed with the Auditor's Office

(6) The certification shall be submitted, together with the addendum required by 15 CSR 40-3.170, within six (6) months after the end of the county, city, town, or village's fiscal year. The certification shall be mailed to the State Auditor's Office at PO Box 869, Jefferson City, MO 65102, or emailed to PolySubFS@auditor.mo.gov.

(7) Any city, town, or village that does not have its own municipal judge because it has all municipal violations adjudicated by a county municipal judge, or by a circuit or associate circuit judge, is not required to file a certification.

If granted, the SPE Certificates will authorize these individuals to qualify as drivers of commercial motor vehicles (CMVs), in intrastate commerce only, without meeting the vision standard prescribed in 49 CFR 391.41(b)(10), if applicable, or the diabetes standard prescribed in 49 CFR 391.41(b)(3).

If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard.

Background

The individuals listed in this notice have recently filed applications requesting MoDOT to issue SPE Certificates to exempt them from the physical qualification requirements relating to vision in 49 CFR 391.41(b)(10), or to diabetes in 49 CFR 391.41(b)(3), which otherwise apply to drivers of CMVs in Missouri intrastate commerce.

Under section 622.555, RSMo, MoDOT may issue an SPE Certificate, for not more than a two- (2-) year period, if it finds that the applicant has the ability, while operating CMVs, to maintain a level of safety that is equivalent to or greater than the driver qualification standards of 49 CFR 391.41. Upon application, MoDOT may renew an exemption upon expiration.

Accordingly, the agency will evaluate the qualifications of each applicant to determine whether issuing an SPE Certificate will comply with the statutory requirements and will achieve the required level of safety. If granted, the SPE Certificate is only applicable to intrastate transportation wholly within Missouri.
